

# OMEGA DASHBOARD™

Today's law enforcement and public safety agencies face challenges well beyond just fighting crime or responding to emergencies. Police, Sheriff and Fire departments are overrun with data from multiple sources. Making sense of it all is a daunting task yet necessary in order to fulfill the needs of each community. Intelligence led policing that relies on data driven decisions has just become much easier.

## INTELLIGENCE LED POLICING

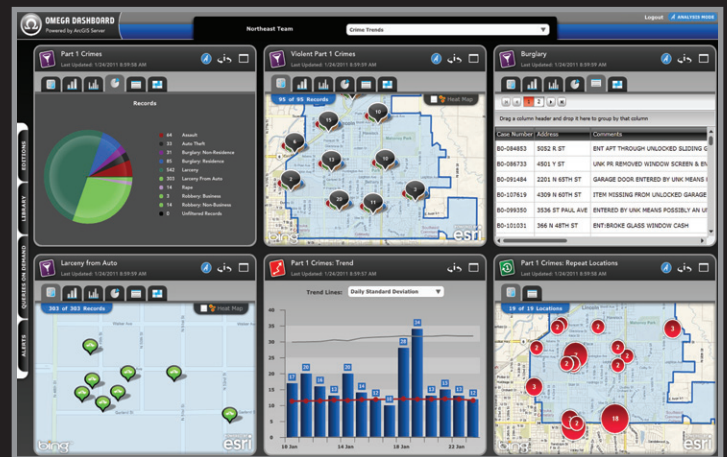

Omega Dashboard™ is the next generation of resource allocation and management tools for police, fire and emergency management agencies. It allows users to analyze data by providing a snapshot of recent events displayed in the form of maps, charts and reports. Omega Dashboard is a browser based solution that can be customized to meet the needs of each user.

## DATA DRIVEN AUTOMATION

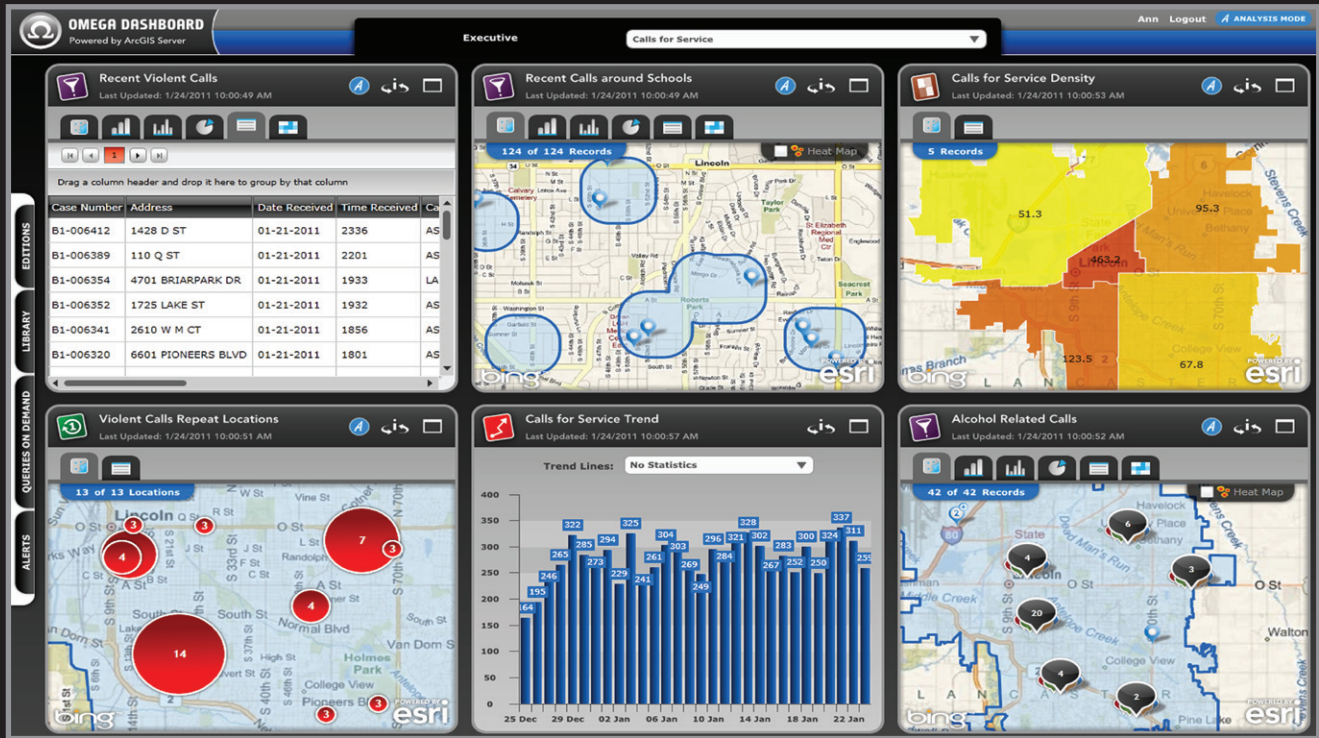

Omega Dashboard™ rests on ESRI's powerful ArcGIS Server mapping engine and organizes complex information from multiple databases into visualizations that provide an instant snapshot of current activity. The entire data integration process is automated so that the information being consumed is always current. Data can be imported from any records or dispatch system and quickly viewed in several formats including heat maps, repeat call locations, day of the week charts and time of day graphs. These visuals allow for the rapid assessment and dissemination of critical information throughout an entire organization.

Omega Dashboard™ provides for two methods of investigation which include Dashboard Mode and Analysis Mode. Dashboard Mode is comprised of Briefing Books, Pages and Widgets. Analysis Mode allows for in depth queries based on such categories as crime type, date and location.

# OMEGA DASHBOARD™

## ADVANTAGES

- **ESTABLISH** a common operating picture through the use of interactive maps, charts and reports.
- **ALLOCATE** resources where they are needed most through the use of our Activity Hot Sheet.
- **ANALYZE** emerging crime trends through the use of our exclusive Editions, Pages and Widgets.
- **SEARCH** timely information with Intelligence Filters that allow for on demand queries.
- **CUSTOMIZE** each Omega Dashboard™ view based on geography, crime type or policing unit.
- **IDENTIFY** outliers with intuitive Benchmark and Drill Down Charts.
- **AUTOMATE** the rapid dissemination of information throughout your entire agency.
- **PROVIDE** your command staff with the tools they need to make data driven decisions!
