

BUILDING SAFER COMMUNITIES

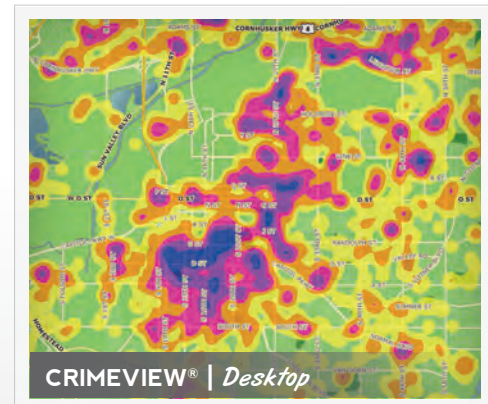

The Omega Group is dedicated to enriching the quality of life in all communities by providing problem solving solutions for law enforcement agencies. Our innovative mapping and analysis tools help reduce crime and integrate directly with any incident reporting or dispatch database. We have been assisting law enforcement since 1992 and hundreds of agencies throughout North America currently use our solutions for intelligence led policing, crime analysis, investigative intelligence, COMPSTAT reporting, tactical operations, directed patrols and community oriented policing efforts.

- ▲ Optimize Officer Allocation
- ▲ Enhance Public Safety
- ▲ Improve Communications
- ▲ Establish a Common Operating Picture
- ▲ Perform Intelligence Led Policing
- ▲ REDUCE CRIME IN YOUR COMMUNITY!

CRIMEVIEW® | *Desktop*

CrimeView® Desktop is the most widely used desktop crime analysis and mapping solution in North America. Computer Aided Dispatch and Records Management Systems data are automatically imported into a mapping platform that allows end users to visualize crime activity geographically. **CrimeView® Desktop** offers crime analysts a simple interface that allows for advanced analyses such as Hot Spot Mapping, Exception Reporting and Repeat Calls investigations. With automated features such as Threshold Alerts and Cyclical Reporting, **CrimeView® Desktop** can save significant time and resources.

CRIMEVIEW® | *Dashboard*

CrimeView® Dashboard represents the next generation of resource allocation and management tools for law enforcement. **CrimeView® Dashboard** provides users with a timely overview of recent events in the form of interactive maps, charts and reports. No software is required by the end user as all information is accessed directly through a Web browser. The creation of customized analysis routines is automated so that the information presented is always current. Our exclusive visualization tools help isolate emerging trends in establishing a common operational picture.

Are Your Officers Armed With The Right Data?

CRIMEMAPPING.com™

CrimeMapping.com™ is our affordable, accurate and timely nationwide public service. Our goal is to assist police departments in reducing crime through a better informed citizenry. **CrimeMapping.com™** helps promote transparency and trust. We work directly with each agency and never scrape data from other sites!

How Can We Help You?

WHAT OUR CLIENTS SAY ABOUT OUR SOLUTIONS?

“We have demonstrated the CrimeView application to several state and local public safety officials, all who comment, that they have never seen such a robust crime mapping system.”

*Sergeant Andrew T. Jaffee,
Information Technology Manager,
Hartford Police Department, Connecticut*

“I wanted to let The Omega Group know we are extremely satisfied with your products and customer service. CrimeView Enterprise has already made a significant impact on identifying crime trends for both Crime Analysts and officers.”

*Jim Scarberry,
Chief of Police,
Hollywood Police Department, Florida*

“The CrimeView family of products has become an essential tool set in our community. CrimeView Dashboard gives our employees easy access to crime mapping data 24-hours a day. Any user with an internet connection has the power of a full featured geographic information system at their disposal.”

*Tom Casady,
Chief of Police,
Lincoln Police Department, Nebraska*
