PRESS RELEASE

Chino Valley Unified Goes Live with School Locator™

Chino Valley Unified School District in the Los Angeles area recently implemented School Locator™ which allows parents in the District to look up their child's elementary, middle, or high school zone of attendance based on address. The site received over 5,000 hits within the first 24 hours of going live and has proven to be an excellent public relations tool. Anyone with a Web browser and internet connection can access the information which is hosted on one of The Omega Group's Web servers.

The number of inquiries regarding pupil placement has been greatly reduced saving

staff time and resources. No software is required since everything is maintained by The Omega Group. School Locator™ includes the following features:

- Quickly map out any child's elementary, middle, or high school zone of attendance by address
- Zoom into any specific area or out to the limits of any educational boundary
- Immediately link to each schools individual Web site
- Map out proposed boundaries for easy public review

The Chino Valley USD School Locator™ site can be found at: <http://chino.ca.schoollocator.us/>
