San Diego, CA 92121

Attn: Milan Mueller

Dear Milan:

I wanted to thank you and your staff at the Omega Group for the successful addition of the Carson City Sheriff's Office to the CrimeMapping.com web site. Your staff was able to add our agency to the CrimeMapping.com web site very quickly that was much appreciated.

CrimeMapping.com focuses on crime prevention and is most valued in the neighborhood watch areas where residents band together to enhance their own quality of life. By knowing exactly what is occurring, neighbors can be vigilant to actual activities and report suspicious incidents quickly to the police. Reported incidents of crime appear right on the computer monitor, either in a mapped or satellite view. Plus, the features of this Internet based program can be set to notify our citizens of crime even without accessing the web site. At no cost, anyone can register right on the web site for updates to be electronically sent to an email address. This addition to our neighborhood watch program, led by the Sheriff's Office Reserves, is one of the most significant tools offered in the community in many years. In difficult economic times, the goal of the Sheriff's Office is to use information and prevention programs to stretch our dollars out the furthest. Crime Prevention is everyone's responsibility and this CrimeMapping.com website should reduce law enforcement costs.

I would recommend this significant crime prevention web site to any Police or Sheriff agency that wants to empower their community. Citizens can get the real picture and see what's really happening in their own neighborhood through the CrimeMapping.com web site.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ken Furlong", is written over the typed name.
