5160 Carroll Canyon Road
San Diego, CA 92121-1775

Dear Omega:

It is a pleasure to take this opportunity to tell you about the excitement I have for the updated School Planner software. Being a long time user of this software from the Omega Group, the ability to see it change and grow to meet our needs, is just tremendous.

As the Planning Technician for the school district, my job incorporates several aspects that pertain to the facilities within our District. The most difficult project that I have just started working on comes as declining enrollment has become an unfortunate reality. With the possibility of closing schools, adjusting boundaries would have been a very difficult process without the use of the School Planner software. The 'redistricting' tool will come in very handy, giving me the ability to create and analyze several times, various scenarios that will make this process somewhat less frustrating.

It is clear to me that The Omega Group has an asset within their organization and that is Lee. The training that I received, questions that were answered, and continued help go way beyond. I know that sometimes within an organization, the smaller questions or situations get 'lost' but not with Lee. There is always a response followed by an answer no matter the size!

I highly recommend the School Planner software to anyone looking for a way to organize their school district!

Sincerely,

Debra Hanna
Planning Technician
